

INTERPUMP

FLUID SOLUTIONS 

Powered by I.M.M. Hydraulics

A COMPLETE RANGE OF HIGH PERFORMANCE HOSES

 **INTERPUMP**  **Hypress R15** ISO 3862/SAE 100

 **INTERPUMP**  **Hypress R13** ISO 3862/SAE 100

 **INTERPUMP**  **Hypress 4SH** EXCEEDS ISO 3862/EN 856

 **INTERPUMP**  **MARATHON**  EXCEEDS EN 857/ISO 11237 - 2SC

For the MARATHON hose ask to our commercial
department for the MSHA cover

MINING APPLICATION

INTERPUMP

FLUID SOLUTIONS

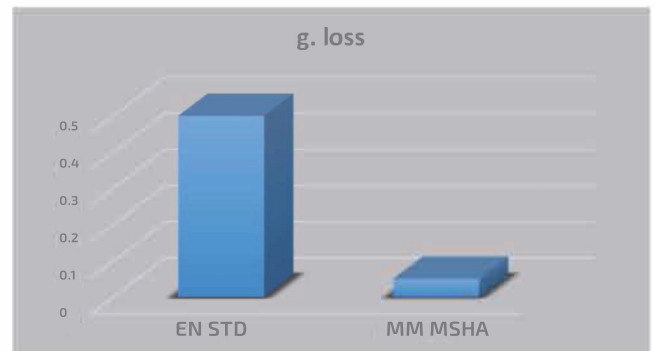

Powered by I.M.M. Hydraulics

IMM offers a complete range of hoses for underground and open pit mines. The IMM INTERPUMP products ensure high reliability in heavy duty hydraulics lines and environmental working conditions

High Abrasion Resistance:

New IMM MSHA cover ensures high protection against abrasion.

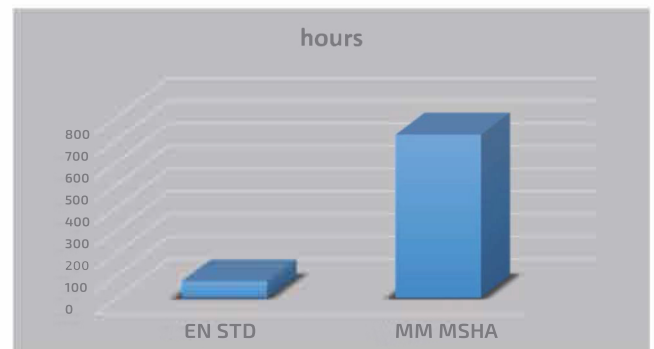

Ten times better than EN requirement according to ISO 6945 (F= 25N)

High Ozone Resistance:

New IMM MSHA cover ensures high ozone resistance to ensure high durability even in open pit mines.

Up to 720 hours according to ISO 7326 - 50ppmh @ 40°C

High reliability in dynamic conditions:

IMM offers a complete hose range (wire spiral and wire braided hoses) tested up to 1.000.000 impulse cycles.

Antistatic: the IMM MSHA Cover is antistatic ($R < 1 \text{ MOhm}$) to avoid burning points

The IMM MSHA Cover is available for the entire steel spiraled and steel braided hose range
